- 1 China was closed to almost all foreign visitors from 1949 to the mid-1970s. Since economic reforms were implemented in 1979, China's tourism has developed very rapidly. The government has constructed major hotels, increased air travel to China and within the country, and opened historic sites to tourists. Millions of visitors travel to China for its beautiful landscapes, interesting and diverse culture, and important historical attractions.
- 2 With the famous Alps and a wealth of cultural and recreational facilities, Austria is one of the world's top tourist destinations. Skiing is a popular pastime in the region of Tirol, in western Austria. The resort village of St. Christoph on the Arlberg Pass offers skiing at an altitude of more than 2,000 m.
- 3 Surfers Paradise, less than an hour's drive south of Brisbane, the capital of Queensland, is now at the heart of Australia's fastest-growing region in terms of both population and economic development. To some, Surfers Paradise on the Gold Coast — a strip of coastline that extends southward from Brisbane for about 100 kilometres to the New South Wales border — is the nightmare that will overwhelm much of Queensland's coastal regions if present population and tourist development trends continue. To others, Surfers Paradise is a dream about to come true, the symbol of a glittering future that will see Queensland transformed from Australia's poorest state into its richest and most populated one.
- 4 Early in the 1950s, Alaskans recognized tourism as a major source of income and tourists discovered Alaska as a vacationland. Each year visitors spend \$ 1.5 billion while in Alaska. The development and advertising of national parks has contributed to a dramatic increase in Alaskan tourism during the

past decade. Tourists come in organized groups on tour ships, buses, or airplanes; as motor home caravans; and as individuals enjoying a wilderness experience. International tourism has also shown a dramatic increase in the 1990s.

- 5 Las Vegas bills itself as the "Entertainment Capital of the World," and tourism, gaming, and entertainment represent a large portion of the city's revenue. In addition to its renowned casinos, Las Vegas attracts visitors to its outdoor shows, including simulated volcanic eruptions, pirate duels on artificial lakes, and laser cannon displays. Indoor casino shows, with world-famous entertainers, are also popular. Annual events include the National Finals Rodeo and the Las Vegas Invitational Golf Tournament.
  
- 6 Lake District extends about 50 km from north to south and about 40 km from east to west. It became famous when a group of British poets (including William Wordsworth, Samuel Taylor Coleridge, and Robert Southey) made it their home about the beginning of the 19th century; they were described by unsympathetic critics as the Lake School of poetry. In 1906, 304 hectares on Ullswater were set apart as a national park. Lake District National Park now incorporates 2,240 sq km of the region. The area is a popular tourist destination.
  
- 7 An attractive and varied landscape, a rich set of cultural resources, and a world-renowned collection of foods and wines make France a major tourist destination. In 2002, France had 77 million visitors, more than any other nation in the world. Tourism is a leading industry in France. The French themselves travel widely in their own country, an activity encouraged by the mandatory five-week paid vacation received annually by most workers.

Today, when English is one of the major languages in the world, it is spoken in many countries either as the mother tongue or as a second language. It is the language of business, technology, sport, and aviation. In this article I'll focus on the two mostly commonly used versions of English — British and American English.

Before we take a look at some of the differences between the two main types of English I'd like to stress **1** \_\_\_\_ and with the ongoing internationalization of our modern world they could even said to be diminishing. The few differences that exist between British and American English tend rather to enrich communication **2** \_\_\_\_\_. Although not all my British readers might agree, I think that the American version of spoken English is becoming more and more dominant for several reasons. Let me give you an example to show you **3** \_\_\_\_\_. When you go to the UK and switch on the TV you will see a lot of American shows, movies and films **4** \_\_\_\_\_. Thus, especially young people watching TV will learn a lot of American vocabulary and phrases **5** \_\_\_\_\_. It follows that modern British English is much more likely to be influenced by American English than the other way round because when you live in the US and watch TV you rarely will see a British show or film. Another area where US English dominates is international business. Most globally operating companies are based in the US and **6** \_\_\_\_\_.

However, as with any issue, the more you think about it, the more variations you will encounter and it would be impossible to cover them all in one article.

- A.**           hence the influence of American English terminology is very strong
- B.**           why American English has a stronger impact on British English than vice versa
- C.**           that has given English its present standing in the world
- D.**           that these differences are somewhat minor
- E.**           which they easily use as their own
- F.**           than slow it down
- G.**           which are shown in the original American version

## AUSTRALIA

Crime was so common in 18th-century Britain that executions were weekly spectacles. Food shortages, harsh penal laws, and the general displacement of people during the early stages in the Industrial Revolution added to its criminal population. Leading social reformers of the day assumed that the best way to eliminate crime was to remove criminals from society. The British government deported many criminals to British overseas colonies. Tens of thousands of convicts were sent to the

Americas. With the loss of its American colonies in 1783, Britain no longer had a convenient place to send its criminals.

Australia was portrayed as a remote and unattractive land for European settlement. However, British merchants and ship owners were looking for new trading opportunities in the East. Naval strategists were seeking fresh supplies of ship timbers and sailcloth.

Australia turned out to be of social and strategic value for a nation with rising crime rates and commercial interests in the Pacific and East Asia. In addition, nearby Norfolk Island, with its tall pine trees, offered a new supply of wood for ships' masts and flax for rope and sailcloth.

In 1786, the British government announced its intention to establish a penal settlement at Botany Bay in Australia. Men, women, and sometimes even children were sent to Australia. When the time of their sentence had been served, they were permitted either to go home — if they could pay the passage — or stay in Australia, which was more usual.

On May 13, 1787, Captain Arthur Phillip of the Royal Navy set sail from Portsmouth with the First Fleet. In addition to their crews numbering over 400 seamen, the 11 ships carried about 780 convicts. Phillip arrived at Botany Bay on January 18, 1788. Finding the bay a poor choice, he moved north to Port Jackson, which he discovered to be one of the world's best natural harbors. Here he began the first permanent settlement on January 26, now known as Australia Day. The settlement was named Sydney for Britain's home secretary, Lord Sydney, who was responsible for the colony. Phillip's territory covered half of Australia, but his human resources were limited. In particular, he lacked the gardeners, skilled carpenters, and engineers needed to develop a self-supporting colony. His major concern, until his departure in 1792, was ruling virtually single-handedly over the small penal settlement.

Conditions were tremendously hard for both convicts and their warders. Three major problems confronted the early governors: providing a sufficient supply of foodstuffs; developing an internal economic system; and producing exports to pay for the colony's imports from Britain. Land around Sydney was too sandy for suitable farming, and the colony faced permanent food shortages through the 1790s. Natural food sources were largely limited to fish and kangaroo. Phillip encouraged the establishment of farms on the more fertile banks of the Hawkesbury River, a few miles northwest of Sydney, but floods often spoiled the crops. Starvation was prevented only by the arrival of ships bearing supplies of grain from Africa's

Cape of Good Hope.

Vitally needed food supplies came mainly from Norfolk Island, nearly 1,600 km away, which Phillip had occupied in February 1788. The island later served as a jail for the more hardened criminals.

The population, both convict and free, increased rapidly after the end of the Napoleonic Wars in 1815. There was a growing tension between convict and free colonists. The released convicts wanted land and opportunities and urged that they be given more rights. They also opposed further convict transportation and wanted it to be abolished. The free settlers demanded that convicts, even after their release, should be kept in reservation and excluded from polite society. The end to the tension was put only by the Act of Parliament in 1823.

**A15** The British government came to the conclusion that the best way of eliminating crime was

- |                                 |                                          |

| 1) to execute criminals.        | 3) to remove criminals from the country. |
| 2) to put criminals to prisons. | 4) to introduce harsh penal laws.        |

**A16** Which of the following statements contradicts the text?

- 1) Britain regarded Australia as a place of strategic value.
- 2) Rising crime rates in Australia made this land unattractive for Europeans.
- 3) Britain was interested in the Pacific region.
- 4) The phrase "a nation with rising crime rates" refers to Great Britain.

**A17** Britain was eager to establish its first settlement in Australia because

- 1) they did not want to send prisoners to America.
- 2) America was a long way from Britain.
- 3) the place where they sent convicts became independent of Britain.
- 4) it was a rich colony.

**A18** British criminal population rose due to all those factors except

| 1) engineers. | 3) soldiers.           |
| 2) gardeners. | 4) skilled carpenters. |

**A20** One of major problems confronted the early governors was

- 1) producing imports to pay for the colony's exports from Britain.
- 2) ruling virtually single-handedly over the small penal settlement.
- 3) developing an external economic system.

- 4) providing a sufficient supply of foodstuffs.

**A21** Released convicts wanted all except

- 1 The country has one of the lowest population growth rates in the world. Links with the extended family remain close. The husband is traditionally considered to be the head of the household, and the wife is responsible for caring for the house and children.
- 2 A handshake usually accompanies a greeting. Male friends often add a pat on the back and, if they have not seen each other for some time, embrace each other. Female friends often kiss each other on both cheeks when greeting or parting. The use of first names is not widespread, and it is still fairly common in business or when addressing older people to use Senor ("Mr."), Senora ("Mrs."), or Senorita ("Miss"). In some areas, the titles Don and Dona are used with the first name to show particular respect.
- 3 The main spectator sport is soccer, which is followed passionately. Spaniards also enjoy golf, basketball, tennis and, in certain regions, hunting, skiing, and fishing. Bullfights still draw crowds. The bullfight, so important a part of Spanish tradition, has been called *a fiesta brava*. It is far more than a mere spectator sport; fans applaud not only the bravery of the *toreros* but their dexterity and artistry as well. Television and cinema are popular. Theatre, music, dance, and opera are well supported in cities such as Madrid and Barcelona.

- 4 Spain occupies the greater part of the Iberian Peninsula, and is bounded in the north by the Bay of Biscay, France, and Andorra; in the east. by the Mediterranean Sea; in the south by the Mediterranean Sea and the Atlantic Ocean; and in the west by Portugal and the Atlantic Ocean. The British dependency of Gibraltar is situated at the southern extremity of Spain. The Balearic Islands in the Mediterranean and the Canary Islands in the Atlantic Ocean off the coast of Africa are governed as provinces of Spain.
- 5 Spain's earliest written history tells of a long sequence of migrations and cultural mingling. Home to Iberians in prehistory, Spain was colonized by Celtic and Phoenician settlers by the 8th century BC. The name Spain (Hispania) owes its origins to the Phoenicians, who called the Iberian Peninsula "Span," which meant hidden or remote land. Celtic and Phoenician settlers were followed by Greeks and Carthaginians and then by Romans. It took Roman soldiers 200 years to conquer all of Spain, a process completed in the 1st century BC.
- 6 Another important festival is *Fa Has de San Jose* (Bonfires of Saint Joseph), which takes place in Valencia in March. Enormous, elaborate papier-mache sculptures — satirical depictions of public figures and the year's events — are displayed. At the end of the week, all but the finest of the sculptures are burned in a ceremony accompanied by fireworks. The *Feria de Abril* in Seville is a particularly lively event in late April.
- 7 Spaniards enjoy a wide range of meat and fish, salad and fruit, and cheese. Adults usually drink wine with their meals, and children drink mineral water or soft drinks. There is usually plenty of bread. Traditional Spanish dishes include *gazpacho* (a cold soup of onions, peppers, tomatoes, and garlic); *paella* (rice, saffron, chicken, seafood, and a variety of other items cooked and served in a large, shallow pan); *calamares en su tinta* (squid cooked in its ink and served on a bed of rice); and *cocido* (Castilian stew).

In the main, Britain's ancestors were Anglo-Saxons. Germanic peoples from Europe — the Angles, the Saxons, and the Jutes — arrived in Britain in massive numbers between the 5th and 7th

After the Anglo-Saxon conquest, the Celts remained in Wales, Scotland, and Ireland where Celtic languages are still used to some extent and Celtic culture is still celebrated. A substantial number of Scandinavians raided and settled in Great Britain and Ireland during the 9th century. ## WALES

Wales is part of the United Kingdom of Great Britain and Northern Ireland, united politically, legally, and administratively with England and occupying a broad peninsula on the western side of the island of Great Britain. Cardiff is the capital, principal seaport, and shipbuilding center. The major cities of Wales besides Cardiff are Swansea, a seaport and center of the tin-plate industry, and Newport.

Wales has an irregular coastline with many bays, the largest of which is Cardigan Bay. Except for narrow, low-lying coastal regions, mainly in the south and west, Wales is almost entirely mountainous. The principal range is the Cambrian Mountains, which extend north and south through central Wales. The Dee River, which rises in Bala Lake, the largest natural lake in Wales, and flows through northern Wales and England, is the principal river. The climate of Wales, like that of England, is mild and moist.

Coal is the most valuable mineral resource of Wales; deposits are located mainly in the south. In general the raising of livestock, mainly beef and dairy cattle and sheep, is more important than crop cultivation. Crops include barley, oats, potatoes, and hay.

Both English and Welsh are official languages. English is spoken by most of the population. A small percentage of the people speak Welsh only; more than one-quarter of the population speak both Welsh and English. As part of an effort to preserve Welsh culture, the government supports Welsh language books, plays, and other artworks. The British Broadcasting Corporation has set aside a channel to broadcast in Welsh during peak viewing hours.

Somewhat isolated by a rugged, mountainous terrain, the Welsh have retained more of the culture of their Celtic ancestors than have either the Scots or the English. The Welsh are well known for their love of singing, and their hymns and folk songs are widely known throughout the world. The long and rich folk tradition has been maintained throughout the rural districts especially, and, since 1906, the Welsh Folk Song Society has done valuable work in collecting and publishing this material. Choral singing is an extremely popular and characteristic part of Welsh musical life. Traditional instruments, especially the harp, are still played. Music plays a large part in the annual festival, the Royal National Eisteddfod, at which poetry reading and Welsh folk arts are also featured. The Eisteddfod is held each year in a different locality, and Welsh natives and those of Welsh descent from all over the world attend. The International Music Eisteddfod is also held annually in Llangollen.

Wales is governed as an integral part of England, and Wales is represented by 40 members in the House of Commons. In 1999, Wales elected its own assembly, although it continues to send members to Parliament in London. The Welsh assembly, or Senedd, has 60 members and is led by an executive committee. The new Welsh assembly does not have the power to raise taxes. It is only able to distribute the money it receives from the British government.

The new assembly took over most of the responsibilities previously handled by the secretary of state for Wales. Some of these responsibilities include economic development, the environment, education, local government, health services, housing, transportation, the arts, and language. The British government continues to control foreign affairs, defense, taxation, overall economic policy, social security, and broadcasting.

### **GREAT BRITAIN**

The United Kingdom is a constitutional monarchy in northwestern Europe, officially called the United Kingdom of Great Britain and Northern Ireland. Great Britain is the largest island in the cluster of islands, or an archipelago, known as the British Isles. England is the largest and most populous division of the island of Great Britain, making up the south and east. Wales is on the west and Scotland is to the north. Northern Ireland is located in the northeast corner of Ireland, the second largest island in the British Isles. The capital of the United Kingdom is the city of London, situated near the southeastern tip of England.

The United Kingdom contains a number of small islands. These include the Isle of Wight, which lies off of England's southern coast; Anglesey, off the northwest coast of Wales; the Isles of Scilly in the English Channel; the Hebrides archipelago to the west of Scotland, consisting of the Inner and the Outer Hebrides; the Orkney Islands to the northeast of Scotland; and the Shetland Islands farther out into the North Sea from Scotland.

Several dependencies and dependent territories are associated with the United Kingdom. The dependencies, located close to Britain, are the Isle of Man in the Irish Sea and the Channel Islands off the northern coast of France. These dependencies, while not technically part of the United Kingdom, maintain a special relationship with it. The Channel Islands were once part of the Duchy of Normandy and retain much of their original French culture. The Isle of Man, controlled by Norway during the Middle Ages, came under English rule in the 14th century. Both dependencies are largely self-governing and have their own legislative assemblies and systems of law. Britain is responsible for their international relations and defense.

Britain's dependent territories are scattered throughout the world and are the remains of the former British Empire. They are generally small in area and without many resources. Once considered colonies, they have opted to remain under British control for a variety of reasons.

People often confuse the names for this country, and frequently make mistakes in using them. *United Kingdom*, *UK*, and *Britain* are all proper terms for the entire nation, although the term *Britain* is also often used when talking about the island of Great Britain. The use of the term *Great Britain* to refer to the entire nation is now outdated; the term *Great Britain*, properly used, refers only to the island of Great Britain, which does not include Northern Ireland. The term *England* should never be used to describe Britain, because England is only one part of the island. It is always correct to call people from England, Scotland, or Wales *British*, although people from England may also properly be called *English*, people from Scotland *Scottish*, and people from Wales *Welsh*.

The United Kingdom is a small nation in physical size. At 244,110 sq km, the United Kingdom is roughly the size of Oregon or Colorado, or twice the size of New York State. It is located as far north in latitude as Labrador in North America, but, like the rest of northern Europe, it is warmed by the Gulf Stream flowing out of the South Atlantic Ocean. The climate, in general, is mild, chilly, and often wet. Rain or overcast skies can be expected for up to 300 days per year. These conditions make Britain lush and green, with rolling plains in the south and east and rough hills and mountains to the west and north.

Despite its relatively small size, Britain is highly populated, with an estimated population density of 243 persons per sq km in 2000. It is highly developed economically, preeminent in the arts and sciences, sophisticated in technology, and highly prosperous. In general, British **subjects** belong to one of the more affluent states of Europe and enjoy a high standard of living compared to the rest of the world.

**A15** According to the text,

- 9) Great Britain is an archipelago.
- 10) England is this most densely populated part of the United Kingdom.
- 11) England is the largest island.
- 12) Northern Ireland is situated in the northern part of Great Britain.

**A16** The Isle of Man and the Channel Islands are British dependencies because

- 9) they have their own legislative assemblies.
- 10) they belonged to France and Norway.
- 11) they are located near the British Isles.
- 12) Britain is liable for their international relations and defense.

**A17** Britain's dependent territories

- 9) are the British colonies.

- 10) are rich in natural resources.
- 11) may be found far from Great Britain.
- 12) may be scattered.

**A18** Which statement corresponds to the text

- 9) The proper use of the term Great Britain refers to the entire nation.
- 10) The inhabitants of the UK should be called English.
- 11) The term Britain may be used when speaking of the whole country.
- 12) The expression "the island of Great Britain" can be changed by the term "Great Britain".

**A19** The United Kingdom is

- 9) two times as little as New York State.
- 10) situated on the same latitude as Labrador.
- 11) far more northern than Labrador.
- 12) far more southern than Labrador.

**A20** The text lacks mentioning

- 9) the climate of the UK.
- 10) the landscape of the UK.
- 11) the average temperature of the UK.
- 12) the geographical position of the UK.

**A21** The word "subjects" in the text means

- 9) parts of the UK.
- 10) states of Europe.
- 11) branches of industry.
- 12) people of the UK.

- A. An unexpected queen**
- B. Childhood**
- C. Victoria's duty as queen**
- D. Married life**
- E. Widowhood**
- F. Grandmother of Europe**
- G. People's recognition**
- H. Victorian age**

- 1 During the years after Albert's death, the queen remained concerned with her ever-growing family. All nine of her children married, and eight of them had children of their own. Some of Victoria's children and grandchildren eventually married the heirs to thrones of Spain, Russia, Sweden, Norway, and Romania.
- 2 Immediately after becoming queen, Victoria began regular meetings with William Lamb, 2<sup>nd</sup> Viscount Melbourne, the British prime minister at the time. The two grew very close, and Melbourne taught Victoria how the British government worked on a day-to-day basis. In the course of her reign, Queen Victoria played a role in appointing some cabinet ministers (and even a prime minister), as well as particular ambassadors and bishops of the Church of England, and she consulted regularly with her prime ministers by letter and in person.
- 3 Sometimes in history, a child or a teenager has actually become a king or queen. One such case happened in 1837, when King William IV of Great Britain died and the crown passed to his 18-year-old niece, Alexandria Victoria. Suddenly, the teenager became Queen Victoria, ruler of the British Empire.

- 4 Queen Victoria never truly recovered from Albert's death in December 1861 at the age of 42. For almost a decade she remained in strict mourning. She rarely set foot in London, and she avoided most public occasions, including the state opening of Parliament. She made an exception, however, for the unveiling of statues dedicated to Prince Albert and, after a few years, for attendance at army reviews. In the course of the later 1870s and the 1880s, she gradually returned to the public arena, and her popularity rose once more.
- 5 The length of Queen Victoria's reign gave an impression of continuity to what was actually a period of dynamic change as Britain grew to become a powerful industrialized trading nation. The queen sympathized with some of these changes — such as the camera, the railroad, and the use of anesthetics in childbirth. She felt doubtful about others, however, such as giving the vote to many more people, establishing tax-supported schools, and allowing women into professions such as medicine. During her reign, the popularity of the British monarchy underwent both ups and downs but ultimately increased. Victoria was important because she brought morality, good manners, and a devotion to hard work to her role as constitutional monarch. She took pride in her role as formal head of the world's largest multiracial and multireligious empire, and her honesty, patriotism, and devotion to family life made the queen an appropriate symbol of the Victorian era.
- 6 In 1839, Victoria fell in love with her first cousin, Prince Albert, of the small German principality of Saxe-Coburg-Gotha. They were married in February 1840, and Albert soon developed a keen interest in the government of his new country. Albert was an unusually studious and serious young man, and he served as his wife's private secretary. The royal couple offered an example of family life that contrasted sharply with the images of previous British monarchs. Between 1840 and 1857, Victoria and Albert had nine children. They took an intense personal interest in the upbringing of their children, and they did not leave them solely in the care of nannies and governesses. They increasingly enjoyed a private family life, particularly at Osborne House on the Isle of Wight and Balmoral Castle in Scotland, both of them rebuilt on the basis of Albert's designs.
- 7 By the 1880s, Victoria had again become the popular symbol of dutiful public service. She appeared in public more often. Excerpts from her private journals that she published in 1868 and 1884 helped to humanize her in the eyes of her subjects. In 1887, her Golden Jubilee, the 50th anniversary of her accession to the throne, was celebrated with great enthusiasm. The Diamond Jubilee of 1897 brought representatives of all the different parts of the British Empire to London and led to the first meeting of the prime ministers of Britain's colonies; it was then that Victoria's

popularity reached its peak. Four years later, after a reign of 63 years, she died on January 22, 1901, in Osborne House.

Old Ellsworth was sitting in his study and reading a newspaper, when Koppel, his servant, came in to offer him orange juice. But Mr. Ellsworth refused.

When doctor Caswell came Koppel told him that the old man didn't take his juice, he didn't want to listen to the radio, and he didn't like anything.

Doctor Caswell had thought a lot about Mr. Ellsworth since his last visit. It was a difficult case. The old gentleman was quite well for a man of seventy six, **1** \_\_\_\_\_. He bought everything he saw: cars, factories, railroads. He was losing his money quickly and it was necessary to keep him away from business.

The doctor decided to recommend him to study art and promised to get a student from art school **2** \_\_\_\_\_.

The doctor found a young student Frank Swain by name, who agreed to give Mr. Ellsworth lessons on art. Swain came to Mr. Ellsworth the next afternoon and the lessons began.

It was difficult to say whether Mr. Ellsworth had really got interested in art but one thing was certain: he stopped buying things and his family was delighted. ### **WHERE SPORT UNITES FRIENDS**

In 1979, Chris Brasher, a former middle distance runner and Olympic champion, returned from the New York Marathon. Although well established in America, big international marathons were a novelty in England. What impressed Chris Brasher most was the incredible feeling of togetherness among people from different cultures, nationalities and backgrounds.

He said: "To believe this story, you must believe that the human race can be one joyous family, working together, laughing together, achieving the impossible."

In March 1981, the first London Marathon took place. 7,747 people were accepted out of over 20,000 applicants.

The full track is 26 miles long. The concept of the marathon comes from Ancient Greece. An Athenian soldier ran 26 miles to give news of the defeat of the invading Persian army at the battle of Marathon.

The London Marathon is an international competition, charity event and street festival, all in one. Runners from all over the world, both professional and amateur, have to apply a year in advance in order to take part in the Marathon. The selection is very strict. To qualify, candidates either need to be strong professional runners or raise a substantial amount of money for a charity of their choice.

Runners who support charities are called fun runners. Instead of competing against the clock they try to impress the public with silly costumes. Last year, one of the fun runners ran in a full deep-sea diving costume! As the costume was very heavy, he had to be accompanied by a doctor to make sure that the runner did not have a heart attack!

Professional runners take a different approach and start a serious training programme at least a year in advance to be able to achieve the necessary level of fitness. Proper training also helps prevent injuries, as steady running for 26 miles is a serious challenge for the heart and feet.

Winning the London Marathon is a considerable sporting achievement. This year's women's winner, Paula Radcliffe, broke her own world record to achieve a time of 2 hours and 15 minutes. Her remarkable result also narrowed the gap between male and female finishing times, narrowing it to only 8 minutes! 20 years ago, the difference was over 25 minutes.

However, the difference between the London Marathon and other marathons of its kind is that there are no losers. This year's Marathon not only brought great sport results but also raised millions of pounds for charities and brought lots of enjoyment to millions of people. And even if it is only a small step to making the world a safer and friendlier place, it is still well worth it, isn't it?

**A15** Chris Brasher wanted to establish the London Marathon because

- 13) it was a new kind of sport.
- 14) Londoners knew nothing about it.
- 15) he wanted to win it.
- 16) he wished to unite people of different cultures.

1. **Variety helps socializing**
2. **The Net socializing**
3. **Negative socializing**
4. **Fears of loneliness**
5. **Socializing dominates education**
6. **Eager to socialize**

## **7. Family socializing**

### **8. Kids need more socializing**

**A.** Most students that don't have any friends at school get depressed or something because they feel lonely, down, and that nobody wants to talk to them. They also might get those phobia things, like for instance, being insecure when talking to someone, or people, for one of the "first" times. So therefore, when a teacher calls them, they might feel uncomfortable with answering. They also might have stuff going through their heads and can't focus on a test, worksheet, or whatever class assignment.

**B.** In many instances, the failure to socialize may be a key factor in qualifying for special education. It is one of the triad of feature for a diagnosis of autism, for example. Special education has a very strong emphasis on inclusion, which in significant part provides for increased social interaction. Learning how to get by in society is an absolutely key component to education, irrespective of whether it is the subject of a performance test.

**C.** In order to get through school properly you need to be able to socialize. It is especially important for little children. That's why in my early childhood education course we are learning that developing ways of having healthy social interactions is so important for children.

**D.** Various societies have varied socializing skills among their members. It does not mean that one culture is superior to others. It just depends on the way that the civilization under study has progressed. A civilization which has cultivated its young generation with a common set of rules and a uniform educational system is more likely to be at harmony. But on the other hand in the United States of America each minor community brings its culture, its ethnicity and their customs. Having so many socializing influences makes the society more tolerant.

**E.** My boyfriend used to go out clubbing all the time. But I'm an introvert and I can't stand that way of easy living. I told him how it made me feel but he says he wants to start going out more, he says socializing is part of his path in life. I asked him what it would be like if we had our own place, he said he would be working all day and then out socializing every night except for the weekends, then he would spend it with me, this is what he would be like if we lived together.

**F.** Every time I use Myspace, Facebook or Bebo, I have a chance to socialize. I use these websites to talk to old friends and make new friends, but the thing is I never ever get that chance to meet a friend, it would be cool to try that, but I don't know what socializing websites guarantee that, I would like a safe teen site, where I can meet and make cool mates.

**G.** There are two types of socializing, depending on the nature of factors that influence them. One is positive when a person learns through good and happy experiences. Parents teaching their kids from their experiences, learning from books or from peers are some example of positive socializing. Positive socializing can take on the form of natural socializing and planned socializing.

***I have a problem socializing with girls***

I try to follow the rule ‘treat others the way you want to be treated’. But the thing I’ve realized is that a lot less seems to bother me than bothers girls. If a girl told me something like ‘I really like you but you’re in a dead end job and I am accustomed to a more expensive lifestyle therefore I wouldn’t compromise.’ I would just say okay.

I don’t know, but the way I am, I prefer if people tell me the truth like that so at least I know what’s wrong and maybe I can do better next time. However with girls I noticed telling the truth gets me hated. Girls call me rude and everything. I started lying to girls in college recently and I managed to get back relations pretty easily so I can imagine why lots of guys do it. The interesting thing is the girls seem to suspect that I’m lying but they still smile and go along with it anyway. Telling girls what they want to hear gets me much further than I used to get. I always had difficulty lying to people because of my morals but these results are astonishing. Women always shun me for telling the cold hard truth so I didn’t know what to do. So I just started doing what got results.

1. BUILDING NEW RELATIONS
2. RENT A GRANNY
3. CARE AND SUPPORT
4. KEEPING FAMILY TOGETHER
5. PLAYING FAVOURITES
6. GOING OUT TOGETHER
7. FAMILY VIOLENCE
8. DIFFICULT RELATIVE

A. Of course, as your children grow, marry and have children of their own, it is not as easy to spend each holiday together. Be flexible and either alternate holidays or pick a few specific holidays where the entire family will be together. Sometimes it sounds like an overwhelming

feat, especially if you have a large family, but as I said, children, even when they become adults, need those special occasions and traditions and they will go out of their way to make sure they happen.

- B. If you are lucky enough to have a sister, you already know that is a special bond unlike any other. Many factors can affect your relationship with your sister as you get older, however, such as age differences, geographic location, new family responsibilities - even sibling rivalry!
- C. If your sister-in-law is much younger than you, then it will be very easy for you to win her over. Little girls love spending time with their big brother's girlfriends, and you're this little girl's big brother's wife, so she's going to be elated to spend time with you. Play together with Barbie dolls, or ask her to help you decorate some Christmas cookies. Become her friend, and take an active interest in her, and she will love you forever.
- D. When parents are surveyed on the subject of favoritism, nearly all respondents say that despite their best efforts to the contrary, they have favored one child over another at least occasionally. "I see the frustration and behavior problems in our oldest child resulting from the favoritism their father shows our youngest child," said one parent in response to a recent *Vision* survey on the topic. "It is a very serious problem in our family."
- E. A new "grannies-for-rent" service in Poland brings together elderly people without families, and people who miss having real grandparents. A local University for the Elderly set up the programme, which aims to benefit people from all generations.
- F. Unfortunately for many, home can be anything but a safe haven. Men and women alike may find their home a fierce battleground. For children it may be where they are most vulnerable to assault, misuse or deprivation, ironically at the very hands of those who have a duty to safeguard and nourish them. Even the elderly may have reason to fear those who should be their caretakers.
- G. Parents give an enormous amount to their children, and as a result they're extremely invested in them, in helping them grow and thrive. They look out for their interests, stay up with them when they're sick, clean up their messes when they're sick - all of that investment helps the child grow and feel secure.

### Frequency of Cheating

Relationship cheating is a very common occurrence. If you haven't experienced it yet, there's a good chance you eventually will.

I found it difficult to track down good cheating statistics. Slightly more than half of all married people will cheat on their spouses at some point in their lives. Men apparently cheat more often than women, but the gap isn't huge.

Most of the time cheating does occur, the other spouse doesn't know about it, with women being in the dark slightly more often than men.

That's if you're married. If you're in a committed relationship but aren't married, then I'd imagine that the odds of cheating are even higher. Partly I say that because cheating is more common when you're younger and becomes less likely as you age.

The big game-changer here is the Internet, which makes even 10-year old stats seem very dated now. Recent surveys suggest that most people have flirted online at one point or another, that when people spend time in chat rooms they're usually motivated by romantic interest, and that about a third of adults have had real relations as a result of a connection that began online.

In the USA alone, tens of millions of people cheat on their primary relationship partners. Most of the time when people cheat, they hide it from their partners, and they usually succeed in doing so, not because they're so great at keeping secrets but mainly because their partners fail to recognize and acknowledge the telltale signs.

Statistically speaking, if you get involved in committed relationships or marriage, the odds are better than 50–50 that you're eventually going to cheat at some point in your life. And you'll probably hide it from your primary partner, and you'll probably get away with it.

Of course you can decline to join this group if you desire so. However, there's still a good chance you'll end up in a relationship with someone else who's a member, and you probably won't know. Or you'll *know*, but you'll retreat into denial about it.

- A. There are many stops on the trail of an Oscars campaign. Nominees do face time at the galas for the various guilds (writers, directors, producers). And then there's the daytime meet-and-greets at American Film Institute and the nominees luncheon for the Academy Awards themselves. But the clothes get louder where the cameras get brighter at the Golden Globes and later the SAG Awards. A highly subjective ranking of how stars showed up and showed off.
- B. "Act of Valor" blends fiction and realism, casting active-duty service members as Navy SEALs (the babes and the bad guy are actors). But some critics question whether the Pentagon has played too large a role in this big-budget Hollywood picture.
- C. In her best, loosest moments, Twyla Tharp choreographs the way Woody Allen writes – with a keen understanding of personality, idiosyncratic rhythm and the essence of the performer. In much the same way that Allen crafted the title character of "Annie Hall" (1977) to distill perfectly Diane Keaton's offbeat hesitations and craziness Tharp created the leading male role in "Push Comes to Shove" (1976) to tease out the contradictions, playfulness and sexual tension coiled up inside ballet star Mikhail Baryshnikov. The portrait still feels right all these years later, even when danced by another man in entirely different circumstances.
- D. America's favorite quiz show "Jeopardy!" is coming to Washington again for a Power Players Week. It's only the third Power Players Week in the show's 28-year history; the first time was in 1997, and the other time was in 2004. The syndicated hit's producers haven't announced who will compete this year, but don't expect a lot of politicians who are now in office.
- E. The new Mob Museum in Las Vegas, which opened Feb. 14, is a late-generation design that uses many of the same tools and techniques one finds at similar venues focused on subjects where popular culture and history are too complicated to be understood. Think of the International Spy

Museum or the Crime Museum (billed as “a must-see for CSI fans”), both in Washington and both conveniently located in a neighborhood near the Mall where the white marble of history blends into the neon lights of food, drink and fun.

- F. And yet as you wander through this exhibition of 77 works by 35 (mostly unknown) artists, many of which have never been seen outside of France, there’s always the possibility that something more is happening. The show is heavy with portraits, in part because female artists were allowed to pursue portraiture as a form more in keeping with gender expectations. Yet many of these relatively conventional portraits are uncommonly interesting, especially those of male sitters. Is there a psychic reversal here, an inversion of the usual power dynamic between the “male” gaze and the submissive “female” subject?
- G. The public of the previous years loved celebrities – their generals, athletes and film stars – but until New York Daily News photographer Harry Warnecke put them on the Sunday Magazine. Most people only knew shapes and shadows of famous faces awash in smudged newsprint. Dwight Eisenhower and Roy Rogers came to life in bright tricolor prints, a process so rare and complicated few photographers used it. That’s one of the reasons why the National Portrait Gallery is exhibiting “In Vibrant Color: Vintage Celebrity Portraits from the Harry Warnecke Studio,” which opens on Friday.

*In concert: Guns N’ Roses at Fillmore Silver Spring*

Guns N’ Roses stepped onto the Fillmore Silver Spring stage a few ticks after midnight on Friday morning and didn’t pack it up until 3:04 a.m. It wasn’t a rock concert. It was a hostage situation.

Where did these guys even find the dare to call themselves Guns N’ Roses? Led by the band’s only original member, frontman Axl Rose, this unfocused eight-man crew pranced and preened with the enthusiasm and talent of a tribute band. For three torturous hours, the guys sucked the life force from some of the most anthemic rock songs ever written - “Sweet Child O’ Mine,” “Paradise City” and “November Rain” among them.

To call it a train wreck wouldn’t be right. Train wrecks are fast and violent. This was like being stuck in gridlock traffic behind a garbage truck in August.

Since Guns N' Roses' beloved original lineup dissolved in the mid-'90s, Rose has become a master of this brand of show business. Fans stuck around him for 15 years but the 2008 opus only proved how far he had fallen. Now, at age 50, Rose is touring with this version of Guns N' Roses as the band prepares to take part in the Rock and Roll Hall of Fame in April.

Dreamers dreamed that this warm-up tour of relatively intimate club dates might include some of the band's early members - guitarists Slash and Izzy Stradlin, bassist Duff McKagan, drummer Steven Adler - that fantastic collision of characters that made Guns N' Roses so magnetic 25 years ago when its album "Appetite For Destruction" gave rock-and-roll its last massive injection of sex and danger.

Instead, Rose has surrounded himself with sloppy, unimaginative players that make him sound dated, safe and sexless. They had no command of pace or rhythm on Friday morning. Drum fills were dashed off. Guitar leads were hurried. And anytime Rose left the stage for one of the dozens of breathers he took throughout the set, the band would wander off into instrumental dead zones, as if trying to discover the intersection of pathetic and insulting.

Vocally, Rose sounded battered but not beaten. And he made up for any botched notes with those iconic moves, furiously pacing the stage, leaning against phantom walls, doing that snakey thing with his hips. His physicality was the only thing connecting him to a more glorious past.

So why did he keep leaving the stage? It only served as a repeated reminder of the Guns N' Roses we weren't seeing.

1. GAMER APPEARANCE OPTIONS
2. NOWADAYS APPEARANCE COMES FIRST
3. INDIVIDUALISM IS BETTER THAN IMITATION
4. BUYING SCREEN APPEARANCE
5. HOROSCOPE PREDOMINANCE
6. COMMON APPEARANCE FOR A GREAT MAN
7. PERSONALITY DICTATES APPEARANCE
8. NEVER KNOWS WHICH WAY TO LOOK

A However, some people become so insecure because of unfair judgment passed on them based on their appearance, that they actually begin using their appearance as a tool to hide who they really are. That's unnatural and the person they turn into ends up being quite unlikable to those outside their group most of the time. We were all born the way we were for a reason. Granted, it may be a reason we don't yet understand, but there is a reason and instead of trying to run from our

differences and fit in with everyone else, we should understand who we are. That will bring us that much closer to finding the answer, to why we are the way we are.

- B Aries – is mostly of medium height and athletically built. The head and forehead are standing out. Eyebrows are bushy. His temper is fiery. Such person is a ground breaker in everything. He is very active and energetic, prefers to act then think of his deeds. The head injuries may take place.
- C With all of the character customization options that you get with Skyrim, it's easy to go overboard and choose an appearance that seems exciting at first, but that quickly loses its appeal. If you've already invested dozens of hours in your character, earned a ton of gold, and completed numerous quests, it's not surprising if you don't want to go back and do it all over again with a new character just to change the way you look. Fortunately, there is a way to change your character's name and appearance later in the game by using the console. You can also use this to change your sex if you want, just don't change your race!
- D When he was forty-one years of age Wesley was described by Dr. Kennicott as being "neither tall nor fat. ... His black hair, quite smooth and parted very exactly, added to a peculiar composure in his countenance, showed him to be an uncommon man." Tyerman says, "In person Wesley was rather below the middle size, but beautifully proportioned, without an atom of superfluous flesh; yet muscular and strong, with a forehead clear and smooth, a bright penetrating eye, and a lovely face, which retained the freshness of its complexion to the latest period of his life."
- E Hello, I was wondering does anyone know if it's possible to get the Cleric armour appearance from the character creation screen? I've found that you can get ones similar to it by buying or finding half plates that have the full plate icon, but I haven't found the exact appearance so far. It's the one with the chain robe and the armoured shoulders and neck piece with the tabard over the top, it's really a driving incentive for me to find this armour if possible, also does anyone know if the Paladin armour from the character creation screen exists in the game? I play on the Sarlona server and my character is named Grimand Oathhammer, if anyone has either of these armours and they are sellable, would they be willing to sell or trade with me?
- F If you are good, personality comes naturally. No matter what color, race or religion you belong to, if you are a good human being, you will never be alone. All you need is to believe in what you do, and do it with complete dedication, honesty and love. And, your efforts will be rewarded. If you are good at something, believe in your talent, don't look back. If you want to, you can! This is the kind of confidence, you get when you believe in your strengths and values. Every individual is a different package and everyone has a personality.
- G Appearance speaks a lot for you than personality. For instance when you appear for an interview, the interviewer will judge your appearance before he gets to know your personality. Suppose you

are meeting your potential in-laws for the first time, you are dressed in a dirty jeans, sandals and shaggy hair, believe me you will not get a wife! You need to look presentable for you to be taken seriously. First of all from the description above, you will be expressing yourself as a disorganized person. I think appearance is very important.

### ***Why Some Don't Care About Their Appearance***

Despite the extremely superficial nature of this society there are still people who are able to avoid the notion that you have to adapt to a particular standard of beauty mainly because they are comfortable in their own skin. To outsiders it might appear that these individuals don't care at all what they look like when the reality is that they simply have different priorities, and so even if their appearance doesn't feature very highly on their list it doesn't mean that they give no consideration to their appearance whatsoever.

For some individuals appearance is extremely important because it gives them an edge. They may already feel confidence when they are with colleagues and friends, but looking good gives them the extra boost they need.

Other people don't attribute that much importance to appearances, especially if they have a laid-back attitude, are confident in themselves, and don't have a job which requires power-dressing. This doesn't mean they don't care about their appearance; just that they have better things to do with their time than dressing up when all they are going to do is sit behind a desk all day.

Some people do care about their appearance, although it may not look that way to others. There are individuals who possess their own unique sense of style, which might entail showing off their tattoos and piercings, as well as wearing clothes which don't seem to go together and look rather scruffy. However, these individuals may well belong to their own 'tribe' and this is their uniform. As far as their fellow 'members' are concerned they are one of them, and are dressed to reflect this. The rest of the world might think these individuals don't care about their appearance, but usually the opposite is true.

Of course, there are those who really don't care what they look like, and usually justifiably so. If you're homeless, have a drink or drug problem, or a mental health issue, you can be forgiven for not making your appearance a priority.

Unfortunately, everybody is judged by their appearance in this society, so that if you don't fit in with what is expected you are usually written off as being a bit weird. Everybody has their ups and downs, though, and surely nobody spends every second of their life trying to look their best. There are occasions when you're sick or are grieving and feel down, so that the last thing on your mind is your appearance. Only the people closest to you are able to judge if you are 'yourself' or not, though, since strangers see you for a split second without comprehending how you are feeling at any given moment.

Most people do care about their appearance when they are in good spirits and things are going well in their life because they want to demonstrate that they belong to this society, which generally means conforming to certain standards in terms of their appearance. There may be some who decide to ignore convention, but these tend to be in the minority, while very few individuals don't care at all what others think about the way they look.

### ПОЯСНИТЕЛЬНАЯ ЗАПИСКА

Контрольно-измерительные материалы разработаны для промежуточного контроля по дисциплине в шестом семестре 3 курса ступени ППСЗ. Форма промежуточного контроля – дифференцированный зачет.

Задания на дифференцированном зачете проверяют знания и умения студентов по специальности 230201 – Организация перевозок и управление на транспорте (по видам)

Дифференцированный зачет проводится письменно в течение 90 минут. Задания на дифференцированный зачет по учебной дисциплине «Иностранный (Английский) язык» состоят из двух частей А и В (тесты по грамматике и страноведческому материалу и задания для работы с текстом). Контрольные задания охватывают все темы рабочей программы дисциплины «ОГСЭ.03.Английский язык».

Задания оцениваются по 5 –бальной шкале. Оценка, полученная на дифференцированном зачете, является итоговой.

9. Variety helps socializing
10. The Net socializing
11. Negative socializing
12. Fears of loneliness
13. Socializing dominates education
14. Eager to socialize
15. Family socializing
16. Kids need more socializing

**A.** Most students that don't have any friends at school get depressed or something because they feel lonely, down, and that nobody wants to talk to them. They also might get those phobia things, like for instance, being insecure when talking to someone, or people, for one of the "first" times. So therefore, when a teacher calls them, they might feel uncomfortable with answering. They also might have stuff going through their heads and can't focus on a test, worksheet, or whatever class assignment.

**B.** In many instances, the failure to socialize may be a key factor in qualifying for special education. It is one of the triad of feature for a diagnosis of autism, for example. Special education has a very strong emphasis on inclusion, which in significant part provides for increased social interaction. Learning how to get by in society is an absolutely key component to education, irrespective of whether it is the subject of a performance test.

**C.** In order to get through school properly you need to be able to socialize. It is especially important for little children. That's why in my early childhood education course we are learning that developing ways of having healthy social interactions is so important for children.

**D.** Various societies have varied socializing skills among their members. It does not mean that one culture is superior to others. It just depends on the way that the civilization under study has progressed. A civilization which has cultivated its young generation with a common set of rules and a uniform

educational system is more likely to be at harmony. But on the other hand in the United States of America each minor community brings its culture, its ethnicity and their customs. Having so many socializing influences makes the society more tolerant.

**E.** My boyfriend used to go out clubbing all the time. But I'm an introvert and I can't stand that way of easy living. I told him how it made me feel but he says he wants to start going out more, he says socializing is part of his path in life. I asked him what it would be like if we had our own place, he said he would be working all day and then out socializing every night except for the weekends, then he would spend it with me, this is what he would be like if we lived together.

**F.** Every time I use Myspace, Facebook or Bebo, I have a chance to socialize. I use these websites to talk to old friends and make new friends, but the thing is I never ever get that chance to meet a friend, it would be cool to try that, but I don't know what socializing websites guarantee that, I would like a safe teen site, where I can meet and make cool mates.

**G.** There are two types of socializing, depending on the nature of factors that influence them. One is positive when a person learns through good and happy experiences. Parents teaching their kids from their experiences, learning from books or from peers are some example of positive socializing. Positive socializing can take on the form of natural socializing and planned socializing.

### THE TRANS-SIBERIAN MAINLINE

*“The Great Siberian Track”* is a well-known name in the history of the Russian State. It was given to the unique railway that connected the European part of the country with the Pacific Coast.

The history of railway construction in Russia started at the end of the 19th century.

Railway mainlines were laid down from the Western borders of the country to St. Petersburg and Moscow, from the center to the Volga region and from Ural to Central Asia. In 1892, the railway network in Russia had a total length of 32,000 km. That very year Samara-Zlatoust railway was built which later became a liaison between railways in the European part of Russia and the Trans-Siberian Mainline. On March 15 1891, *Alexander III* issued an imperial prescript addressed to future Emperor *Nicholas II* that stated: “I command to start constructing a railway across all Siberia to connect the Siberian region with the European part of Russia. I also entrust you with groundbreaking\* of the Great Siberian Track in Vladivostok.”

Two projects of the future mainline were proposed – “the southern version” and “the

northern version”. “The northern version” suggested by the Minister of Railways *K.N. Posyet* won. According to his project the railway was shorter by 400 km and was passing by the Siberian high road\*\* and populated areas.

The building of the Great Siberian Track began in 1893. Construction rates were very fast despite the fact that the railroad went through swamps, thick taiga, crossed major rivers and huge mountains. In less than 15 years, more than 8,600 km of track were laid down. At first 10,000 workers were involved in the construction. Later their number went up to 100,000. Job and living conditions were extremely tough. The main tools were spades, picks, axes, wheelbarrows and horse-drawn carts.

The building of the gigantic mainline was a heroic deed accomplished by Russian construction workers due to their tenacious efforts and courage. Some of Trans-Siberian stations bear their names – *Rukhlovo, Vyazemskaya, Baranovsky, Snarsky, Adrinovka*, etc. The Minister of Railways *Vitte* wrote: “The Great Siberian Railway breathed life into boundless Siberian lands.”

2. RENT A GRANNY
3. CARE AND SUPPORT
4. KEEPING FAMILY TOGETHER
5. PLAYING FAVOURITES
6. GOING OUT TOGETHER
7. FAMILY VIOLENCE
8. DIFFICULT RELATIVE

- H. Of course, as your children grow, marry and have children of their own, it is not as easy to spend each holiday together. Be flexible and either alternate holidays or pick a few specific holidays where the entire family will be together. Sometimes it sounds like an overwhelming feat, especially if you have a large family, but as I said, children, even when they become adults, need those special occasions and traditions and they will go out of their way to make sure they happen.
- I. If you are lucky enough to have a sister, you already know that is a special bond unlike any other. Many factors can affect your relationship with your sister as you get older, however, such as age differences, geographic location, new family responsibilities - even sibling rivalry!
- J. If your sister-in-law is much younger than you, then it will be very easy for you to win her over. Little girls love spending time with their big brother's girlfriends, and you're this little girl's big brother's wife, so she's going to be elated to spend time with you. Play together with Barbie dolls, or ask her to help you decorate some Christmas cookies. Become her friend, and take an active interest in her, and she will love you forever.
- K. When parents are surveyed on the subject of favoritism, nearly all respondents say that despite their best efforts to the contrary, they have favored one child over another at least occasionally. "I see the frustration and behavior problems in our oldest child resulting from the favoritism their father shows our youngest child," said one parent in response to a recent *Vision* survey on the topic. "It is a very serious problem in our family."
- L. A new "grannies-for-rent" service in Poland brings together elderly people without families, and people who miss having real grandparents. A local University for the Elderly set up the programme, which aims to benefit people from all generations.

- M. Unfortunately for many, home can be anything but a safe haven. Men and women alike may find their home a fierce battleground. For children it may be where they are most vulnerable to assault, misuse or deprivation, ironically at the very hands of those who have a duty to safeguard and nourish them. Even the elderly may have reason to fear those who should be their caretakers.
- N. Parents give an enormous amount to their children, and as a result they're extremely invested in them, in helping them grow and thrive. They look out for their interests, stay up with them when they're sick, clean up their messes when they're sick - all of that investment helps the child grow and feel secure.

### FROM THE HISTORY OF THE LONDON UNDERGROUND

The underground railways as a kind of city transport appeared in the second half of the 19th century. The first underground system was proposed by *Charles Pearson* in 1843. Twenty years later the first line of the London Underground was opened for traffic. Its length was almost four miles. On that first historic day, 30,000 Londoners made the first underground railway travel in the world.

In the early days, the trains were driven by steam locomotives, which burnt coal, filling the tunnels with smoke. It is said that the train staff and porters asked for a permission to grow beards and moustaches – as an early form of smog mask. The tunnels of the first underground were made as small as possible in order to reduce the construction costs. The coaches themselves were small and narrow.

According to *Pearson's* project, all lines were laid down close to the ground surface. The deep tunneling came later, in 1890. Constructing the tunnel through miles of clay, sand and gravel is no easy task, and it was *James Henry Greathead* who developed the method, which made the construction of most London tunnels possible. One of the longest continuous tunnels in the world is the 17½-mile tunnel on the Northern line. The first escalator was also installed in the London Underground in 1911.

During the World War II, the London Underground served as a shelter for thousands of Londoners. Many British Museum treasures spent the war in the tunnels of the underground. The railways were prepared for any emergency that might occur. They had duplicate control systems, repair groups, duplicate power supply and so on. To minimize the danger of flooding the underground near the

Thames, isolating doors were built in the tunnels. All the trains were equipped with special reduced lighting for using on open sections of track. Nowadays the London Underground is the most popular means of city transport. Its length is about 300 km and it has 273 stations.

H. There are many stops on the trail of an Oscars campaign. Nominees do face time at the galas for the various guilds (writers, directors, producers). And then there's the daytime meet-and-greets at American Film Institute and the nominees luncheon for the Academy Awards themselves. But the clothes get louder where the cameras get brighter at the Golden Globes and later the SAG Awards. A highly subjective ranking of how stars showed up and showed off.

I. "Act of Valor" blends fiction and realism, casting active-duty service members as Navy SEALs (the babes and the bad guy are actors). But some critics question whether the Pentagon has played too large a role in this big-budget Hollywood picture.

J. In her best, loosest moments, Twyla Tharp choreographs the way Woody Allen writes – with a keen understanding of personality, idiosyncratic rhythm and the essence of the performer. In much the same way that Allen crafted the title character of "Annie Hall" (1977) to distill perfectly Diane Keaton's offbeat hesitations and craziness Tharp created the leading male role in "Push Comes to Shove" (1976) to tease out the contradictions, playfulness and sexual tension coiled up inside ballet star Mikhail Baryshnikov. The portrait still feels right all these years later, even when danced by another man in entirely different circumstances.

K. America's favorite quiz show "Jeopardy!" is coming to Washington again for a Power Players Week. It's only the third Power Players Week in the show's 28-year history; the first time was in 1997, and the other time was in 2004. The syndicated hit's producers haven't announced who will compete this year, but don't expect a lot of politicians who are now in office.

- L. The new Mob Museum in Las Vegas, which opened Feb. 14, is a late-generation design that uses many of the same tools and techniques one finds at similar venues focused on subjects where popular culture and history are too complicated to be understood. Think of the International Spy Museum or the Crime Museum (billed as “a must-see for CSI fans”), both in Washington and both conveniently located in a neighborhood near the Mall where the white marble of history blends into the neon lights of food, drink and fun.
- M. And yet as you wander through this exhibition of 77 works by 35 (mostly unknown) artists, many of which have never been seen outside of France, there’s always the possibility that something more is happening. The show is heavy with portraits, in part because female artists were allowed to pursue portraiture as a form more in keeping with gender expectations. Yet many of these relatively conventional portraits are uncommonly interesting, especially those of male sitters. Is there a psychic reversal here, an inversion of the usual power dynamic between the “male” gaze and the submissive “female” subject?
- N. The public of the previous years loved celebrities – their generals, athletes and film stars – but until New York Daily News photographer Harry Warnecke put them on the Sunday Magazine. Most people only knew shapes and shadows of famous faces awash in smudged newsprint. Dwight Eisenhower and Roy Rogers came to life in bright tricolor prints, a process so rare and complicated few photographers used it. That’s one of the reasons why the National Portrait Gallery is exhibiting “In Vibrant Color: Vintage Celebrity Portraits from the Harry Warnecke Studio,” which opens on Friday.

### THE OLDEST RAILWAY IN RUSSIA

The St. Petersburg-Moscow Mainline is the oldest and the most outstanding railway in Russia. The project of this railway was proposed by *P.P. Melnikov*. According to his project “chugunka” was planned as a double-track line, 664 km long, with the 5 feet gauge (now the standard), steam-powered. The speed of passenger and freight trains was supposed to be 34.4 km and 16 km respectively.

The construction began in 1843 and lasted 8 years. From the very beginning, the builders faced many hardships because of severe climatic and difficult geological conditions. Hundreds of kilometers of track were laid down through forests and marshes, many rivers were crossed.

The line is virtually straight and level. 185 bridges and 19 viaducts were built to make the line as straight as possible. There is a legend that the route of the railway was chosen by the *Tzar Nikolay I*, who drew a straight line between the two cities on the map and ordered this line to be the route of the railway. However, the fact is that the construction of the line was preceded by long and thorough surveying work, a great part of which was done by *P.P. Melnikov* himself.

All the component parts of the track, bridges and viaducts were produced at Russian plants by using only domestic materials, including timber for sleepers and cast iron for rails.

One has to give credit\* to the first railway builders, who laid the track in extremely difficult conditions. Nobody took care of the workers and nobody paid attention to their working conditions. People lived in “shalashes” or dugouts; ate often tainted food; worked from dawn till sunset, often in water up to their knees and their main tools were spades, picks, axes, wheelbarrows and horse-drawn carts. The cruel exploitation of the workers was exposed by Nekrasov in his famous poem “The Railway”. The railroad was officially opened for traffic on November 1, 1851. The first train departed from St. Petersburg at 11.15 and arrived in Moscow 21 hours 45 minutes later. There were 17 passengers in the first-class cars, 63 – in the second-class cars and 112 – in the thirdclass cars. The speed of the first trains was 40 km/h but two years later, it was increased up to 60 km/h. It was the world’s record in the speed of passenger trains.

- A However, some people become so insecure because of unfair judgment passed on them based on their appearance, that they actually begin using their appearance as a tool to hide who they really are. That's unnatural and the person they turn into ends up being quite unlikable to those outside their group most of the time. We were all born the way we were for a reason. Granted, it may be a reason we don't yet understand, but there is a reason and instead of trying to run from our differences and fit in with everyone else, we should understand who we are. That will bring us that much closer to finding the answer, to why we are the way we are.
- B Aries – is mostly of medium height and athletically built. The head and forehead are standing out. Eyebrows are bushy. His temper is fiery. Such person is a ground breaker in everything. He is very active and energetic, prefers to act then think of his deeds. The head injuries may take place.
- C With all of the character customization options that you get with Skyrim, it's easy to go overboard and choose an appearance that seems exciting at first, but that quickly loses its appeal. If you've already invested dozens of hours in your character, earned a ton of gold, and completed numerous quests, it's not surprising if you don't want to go back and do it all over again with a new character just to change the way you look. Fortunately, there is a way to change your character's name and appearance later in the game by using the console. You can also use this to change your sex if you want, just don't change your race!
- D When he was forty-one years of age Wesley was described by Dr. Kennicott as being "neither tall nor fat. ... His black hair, quite smooth and parted very exactly, added to a peculiar composure in his countenance, showed him to be an uncommon man." Tyerman says, "In person Wesley was rather below the middle size, but beautifully proportioned, without an atom of superfluous flesh; yet muscular and strong, with a forehead clear and smooth, a bright penetrating eye, and a lovely face, which retained the freshness of its complexion to the latest period of his life."
- E Hello, I was wondering does anyone know if it's possible to get the Cleric armour appearance from the character creation screen? I've found that you can get ones similar to it by buying or finding half plates that have the full plate icon, but I haven't found the exact appearance so far. It's the one with the chain robe and the armoured shoulders and neck piece with the tabard over the top, it's really a driving incentive for me to find this armour if possible, also does anyone know if the Paladin armour from the character creation screen exists in the game? I play on the Sarlona server and my character is named Grimand Oathhammer, if anyone has either of these armours and they are sellable, would they be willing to sell or trade with me?
- F If you are good, personality comes naturally. No matter what color, race or religion you belong to, if you are a good human being, you will never be alone. All you need is to believe in what you do,

and do it with complete dedication, honesty and love. And, your efforts will be rewarded. If you are good at something, believe in your talent, don't look back. If you want to, you can! This is the kind of confidence, you get when you believe in your strengths and values. Every individual is a different package and everyone has a personality.

G Appearance speaks a lot for you than personality. For instance when you appear for an interview, the interviewer will judge your appearance before he gets to know your personality. Suppose you are meeting your potential in-laws for the first time, you are dressed in a dirty jeans, sandals and shaggy hair, believe me you will not get a wife! You need to look presentable for you to be taken seriously. First of all from the description above, you will be expressing yourself as a disorganized person. I think appearance is very important.

### FROM THE HISTORY OF RAILWAYS IN GREAT BRITAIN

The history of railways in Great Britain began in the second part of the 18th century. The first railways were horse-powered and were used for transporting coal, timber and ore. Later on, horse-powered railways appeared in large cities and were used as passenger transport. However, they did not last long. In 1763, *James Watt* invented the stationary steam engine and *George Stephenson* was one of the first who put a steam engine on wheels. He made a design of a locomotive but could not build it, as he had no money. Some businessmen decided to construct a railway between *Stockton* and *Darlington* to see how *Stephenson's* locomotive worked. On the day when it was opened, a man on a horse went in front of the engine and shouted that the train was coming. *Stephenson*, who was running his locomotive, asked the horseman to go away. He put steam on and ran his locomotive at a speed of 12 miles per hour. It was the beginning of steam-powered railways. In 1829, the *Liverpool-Manchester Railway* was built, and the railway company offered a prize of £500 for the best steam train. The prize was won by *G. Stephenson* with his famous train the "*Rocket*". This locomotive was faster and stronger than the first one; it could pull 13 tons and achieved an "unheard-of speed" of 29 miles (46 km) per hour.

At first, many people were afraid of the railways. However, in 1842 the steam-powered railways were already in wide use in Britain. It should be said\* that the gauge was not the same on all the railways. The famous English engineer *Brunel* considered that the\*\* broader the gauge, the easily would the

trains run. Following his advice *the Great Western Company* had constructed the railway network with a gauge of 7 feet. That is why for many years there were two gauges in England: the 7 feet suggested by *Brunel* and 4 feet 8½ inches, offered by *Stephenson*. It was inconvenient because where there was a break of gauges, delay was caused and time was wasted. Angry people wrote to the newspapers and demanded to change the broad gauge. At last in *the House of Commons*\*\*\* the broad gauge was described as a “national evil”. It was very difficult to alter the gauge as the engines, carriages, wagons were made for the broad gauge and more than 30 years “The Battle of the Gauges” lasted. Only in 1892 *the Great Western Railway* was converted to the standard gauge.

### ПОЯСНИТЕЛЬНАЯ ЗАПИСКА

Контрольно-измерительные материалы разработаны для промежуточного контроля по дисциплине в седьмом семестре 4 курса ступени ППССЗ. Форма промежуточного контроля – дифференцированный зачет.

Задания на дифференцированном зачете проверяют знания и умения обучающихся по специальности 23.02.01 – Организация перевозок и управление на транспорте (по видам)

Дифференцированный зачет проводится письменно в течение 90 минут. Задания на дифференцированный зачет по учебной дисциплине «Иностранный язык» состоят из двух частей А и В (тесты по грамматике и страноведческому материалу и задания для работы с текстом). Контрольные задания охватывают все темы рабочей программы дисциплины «ОГСЭ.03.Иностранный (Английский) язык».

Задания оцениваются по 5 –бальной шкале. Оценка, полученная на дифференцированном зачете, является итоговой.

#### Шкала перевода баллов в отметку по пятибалльной системе

Отметка	Необходимое количество баллов
«3» («удовлетворительно»)	20-29
«4» («хорошо»)	30-39 (не менее одного задания дополнительной части)
«5» («отлично»)	40-45 (не менее двух заданий дополнительной части)

#### Технологическая матрица

### **Инструкция по выполнению работы**

Задания на дифференцированный зачет по английскому языку состоят из двух частей, включающих в себя 32 задания.

Часть А (обязательная часть) (задания по грамматике, лексике и страноведческому материалу) состоит из 30 заданий с выбором ответа. К каждому заданию приводятся четыре варианта ответа, из которых только один верный. Рекомендуемое время на выполнение части – 40 минут. При выполнении заданий части А необходимо обвести номер выбранного ответа в зачетной работе. Если Вы обвели не тот номер, то зачеркните этот обведённый номер крестиком и затем обведите номер нового ответа.

Часть В (дополнительная часть) (задания по чтению) содержит 2 задания на понимание прочитанных текстов. Задания на соответствия заголовков и текстов и на понимание содержания текста. Рекомендуемое время на выполнение заданий части – 50 минут.

Рекомендуется выполнять задания в том порядке, в котором они даны. На выполнение письменной зачетной работы отводится 90 мин.

### Часть В (дополнительная часть)

**31. (5 баллов).** Прочитайте тексты и установите соответствие между заголовками 1-8 и текстами A-G. Занесите свои ответы в таблицу. Используйте каждую букву только один раз. В задании есть один лишний заголовок.

1. **Parts of the body**
2. **Regional English**
3. **Sport**
4. **Shopping for clothes**
5. **Body Language**
6. **Fashion**
7. **Language Development**
8. **Manners**

A. People are taught to say “thank you” or “thanks” when somebody has given them something or done something for them. In a shop many British people say “thank you” several times at the checkout, when the operator tells them the total cost of their goods and when he or she gives them their change or gives back their credit cards.

B. During World War 1 women began wearing shorter skirts and bared their legs. Soon they began wearing trousers. Men’s suits became looser and were worn with a long tie. During the 1960s women wore miniskirts. Jeans and T-shirts became popular with both men and women.

C. Many people in Britain buy their clothes in chain stores or department stores. There is a traditional department store, Marks & Spencer, which is popular with people of all ages. To the British, clothes here are typical of the middle range: they are neither cheap nor expensive, fairly good quality and rather conservative.

D. Some words and phrases used in cricket have become idioms with a wider use. An unfair action may be described as “not cricket”, because cricket is used to be thought of as a gentleman’s sport and high standards of behavior were expected from players. The idiom is rather old-fashioned, because the language is always changing, but it is still used humorously.

E. Modern dialects come from Old English. The Old East Midlands dialect later became standard English, while others became dialects spoken today in various parts of Britain. Most British people can recognize Cockney, a London dialect of the working class. The northern Geordie dialect shares many features with Scottish English.

F. A finger held to the lips means “Be quiet!” If you stick your fingers in your ears, you cannot stand the noise of something. Lifting the arm is used to attract attention. People clap their hands to show they are pleased about something. If you stand with your hands on your hips, you are angry. Children stick their tongues to show they do not like somebody, but this is rude.

G. Our team won after a long and breath-taking fight. The only goal was scored at the 82nd minute of the match by the young halfback Sean Smorret.

### **English railways**

The first Act of Parliament for a railway, giving right of way over other people's property, was passed in 1758, and the first for a public railway, to carry the traffic of all comers, dates from 1801. The Stockton and Dailington Railway, opened on 27 September 1825, was the first public steam railway in the world, although it had only one locomotive and relied on horse traction for the most part, with stationary steam engines for working inclined planes. The obvious advantages of railways as a means of conveying heavy loads and passengers brought about a proliferation of projects. The Liverpool & Manchester, 30 miles (48 km) long and including formidable engineering problems, became the classic example of a steam railway for general carriage. It opened on 15 September 1830 in the presence of the Duke of Wellington, who had been Prime Minister until earlier in the year. On opening day, the train stopped for water and the passengers alighted on to the opposite track; another locomotive came along and William Huskisson, an MP and a great advocate of the railway, was killed. Despite this tragedy the railway was a great success; in its first year of operation, revenue from passenger service was more than ten times that anticipated. Over 2500 miles of railway had been authorized in Britain and nearly 1500 completed by 1840. Britain presented the world with a complete system for the construction and operation of railways. Solutions were found to civil engineering problems, motive power designs and the details of rolling stock. The natural result of these achievements was the calling in of British engineers to provide railways in France, where as a consequence left-hand running is still in force over many lines.

**Укажите, какие из следующих утверждений соответствуют содержанию текста. Используйте фразы: It is right (+). It is wrong (-).**

1. The history of English railroads is long. The first mention dates back to XVIII century.
2. The first attempts of the railway were successful.
3. British railway presented a simple system for the construction and operation.

**31. (5 баллов).** Установите соответствие между заголовками 1–8 и текстами A–G. Занесите свои ответы в таблицу. Используйте каждую цифру только один раз. В задании один заголовок лишний.

1. World language
2. Media and communication
3. City lifestyle
4. English in schools
5. Diverse population
6. Leisure and pastime
7. Environmental issues
8. Countryside

A. Speaking English gives people many privileges in society. It is possible to communicate successfully with those who don't know your mother tongue. In order to possess these privileges school teachers introduce six hours of learning English a week for all Russian schools. Learning English should become more intensive to make Russian citizens more communicative.

B. The USA is often called a melting pot – a total mix of races and nationalities. In fact, the same could be said of Britain, except this process took far longer. The British today are the result of wave after wave of conquest, migration and mixing. Now there are people of all colours and races in the UK. They are mostly former inhabitants of the former British colonies.

C. Lately, people have been moving into suburbs, smaller towns and the country. Villages, farms and cottages, which used to be full of agricultural workers, are now the homes of people who drive to their offices in cities. So Britain remains one of the most urbanized countries in the world, with nine in ten of the population living in towns or cities.

D. The poet William Blake wrote 200 years ago of “ England's green and pleasant land.” In spite of their mainly urban lives, this image is still strong in British people imagination. They love their countryside and watch hours of wildlife programmes on TV every week. Some of the first environmental organisations in the world started in Britain. The British managed to defeat the London smog: replacing coal by oil and gas. And they are rather proud of this achievement.

E. English is very popular nowadays. It's the language of computers, science, business and politics. English is an amazing language, the language of great literature. Half of the world's scientific literature is published in English. Nearly half of the world's business deals in Europe are conducted in English. It's the language of sports and glamour, being the official language of the Olympic Games. English is the official voice of the air and the sea.

F. Visitors to Britain are often surprised by the titles of the magazines. Some of them are extremely specialized and lots of them are of new technology. The British are also great newspaper readers. An almost universal British custom, going for a walk, is another surprising fact. This means healthy exercise in the open air with lots of natural life to study on the way. In the city walkers will look for any little bit of park or canal bank.

G. The Cotwolds are green hills in agricultural country to the west of England. A mixture of small fields separated by old – dry stone walls and lines of trees makes this a perfect example of traditional rural area. Farming is balanced with cattle and sheep and small spots of woods. Many farms, houses and churches, like the walls dividing the fields are built of local honey – coloured stone. Villages with climbing roses around the doors of the cottages are small and beautifully kept.

### **The American Railroads: A Long and Storied History**

The earliest American railroads in this country date back to the New Jersey Railroad Company of 1815 chartered by Colonel John Stevens. This line was ultimately never constructed and while small gravity and mule-powered roads popped up here and there in the eastern United States it was the coming of the steam locomotive that truly allowed railroads to prosper. In August of 1829 Horatio Allen tested an English-built steamer named the *Stourbridge Lion* in Pennsylvania and the rest as they say, is history. By the time of the Civil War there were more than 60,000 miles of railroad in the country and this ballooned to more than 190,000 by the turn of the 20th century. There was a time in this country when railroads crisscrossed the nation, one could find a pair of railroad tracks only a very short distance from their home, and almost every town, large and small, boasted a train station of some type.

During the height of the industry, commonly referred to as the "Golden Age" from the late 19th century through the 1920s there were more than 254,000 miles of railroad in service. Sadly, as the 20th century progressed rail began to lose its luster and in the waning days between the 1950s and 1970s enormous amounts of our rail heritage was either abandoned or ripped up, most notably structures and landmarks such as Pennsylvania Railroad's iconic Pennsylvania Station in New York City, the Central Railroad of New Jersey's magnificent Newark Bay Bridge, the Milwaukee Road's entire Pacific Coast Extension (which, itself, contained several noted engineering feats), a number of Chicago's great passenger terminals, and the list goes on and on.

**Укажите, какие из следующих утверждений соответствуют содержанию текста. Используйте фразы: It is right (+). It is wrong (-).**

1. The earliest American railroads date back to XVIII century.
2. The first American locomotives were steam ones.
3. The wide development of American railway continued in XX century.

### Часть В (дополнительная часть)

31. (5 баллов). Прочитайте тексты и установите соответствие между заголовками 1-8 и текстами А-Г. Запишите свои ответы в таблицу. В задании есть один лишний заголовок.

1. Famous sights
2. Eating out
3. Sporting events
4. Means of transport
5. Pages from history
6. The location of the city
7. Education
8. Population

- A. Influence of New York City is seen throughout the world although is not the capital of the United States. Its nickname, `Big Apple`, was given to it by early immigrants because the city seemed so huge and full of promise. It is located at the mouth of the Hudson River and lies on the same territory as the European cities of Naples and Madrid.
- B. The Dutch founded the city in 1614, calling it New Amsterdam. However, in 1664 it was captured by the British and renamed New York. The city grew in importance and was the US capital until 1790. During the 19th century it was transformed by immigration and from the early 20th century became a world centre for industry, commerce and communication. With the economic boom came the construction of its skyline of skyscrapers, two of which, the Twin Towers of the World Trade Centre, were destroyed in the attacks of September 11th 2001, when nearly 3,000 people died.
- C. New York is the most densely populated and cosmopolitan city in the US with 8, 214, 246 inhabitants speaking 170 languages. 36 % of the city's population is foreign born. Five of the largest ethnic groups are: Puerto Ricans, Italians, West Indians, Chinese and Irish.
- D. One in the three New Yorkers uses public transport to get to work, whereas in the rest of the US 90% of people go by car. The New York City Subway, which is open 24/7, is used by 1,4 billion passengers a year. New York is also home to the famous Grand Central Station, three major airports, and 12,000 distinctive, yellow taxi cabs.
- E. The New York Marathon held annually on the first Sunday of November, is the largest marathon of the world. It attracts 37,000 runners. However, many New Yorkers prefer a less energetic jog round Central Park. New Yorkers are also keen baseball fans. The two most popular teams are The New York Yankees and The New York Mets.
- F. About 40 million tourists visit New York City each year. Major attractions include the Empire State Building, the Metropolitan Museum of Art, Times Square, Central Park and, of course, the luxury shops along the Fifth Avenue. If you are fond of theatres, you can find a lot of them on Broad Way.
- G. Tourist are also attracted by the incredible variety of places to eat, from diners with their burgers, bagels and pizza, to many of the finest haute cuisine restaurants in the US, and forgetting the Grand Central Oyster Bar, and the streaming hotdogs sold on every street corner. It is often called `The city that never sleeps` because there is so much to do and see.

### **Elevated Railways**

At the end of the 19-th century the street traffic in big towns became heavy because of rapid development of public transport. After careful studies of the problem some American cities decided that it would be cheaper to build elevated railway carried by high supports above the streets with busy road traffic. Although these elevated railways produced much noise they became popular because they saved people much time.

The project of the "EL" (a shortened form of "elevated railways") was put forward by Charles Harvey. The designer believed that his railway would be a convenient passenger transport in big cities. Indeed, the experiments with the newly designed system were a success, and soon main parts of New York were linked by the elevated railway. The cars were drawn along the track by means of a cable and attained a high speed.

The "EL" was so popular that at one time over one million passengers were travelling on it each day. In later years, however, the underground lines, buses and motor cars took away the traffic from "EL" railway and it had to be closed down.

### **Train dispatcher**

At every railway division there is always a train dispatcher. From every station he receives reports of passing trains. He knows at any time the location of every train on his division. When a train becomes late, or when an extra train is started, it is his business to give the orders which will permit the trains to pass over his division with as little delay as possible. He directs the movement of trains. His work requires quick acting, and above all absolute accuracy. The slightest mistake on the part of the dispatcher may cause a terrible accident.

Each dispatcher makes a complete record of the movement of trains on his division. He has to keep traffic moving freely. He provides the best possible utilization of locomotive and train crews, the running of special trains. Train control is carried out from special offices that are equipped with different devices.

*extra train - дополнительный поезд*
